

# ONE STEP AHEAD

## WHEN IT COMES TO TESTING

*We invest a lot of resources in reducing our environmental impact, avoiding hazardous substances and raising the level of quality and safety.*

*Here is a list of certifications which our products can be marked with:*

### OEKO-TEX CERTIFIED

#### Testing for harmful substances

- Independent testing and certification system
- Applied specific for textile products
- All components of an item have to comply with the required criteria without exception
- Also non textile accessories such as buttons, zippers and rivets

### GOTS CERTIFIED

#### GOTS = Global Organic Textile Standard

- Organic cotton
- No toxic chemicals
- Minimum waste of water
- Focus on recycle –e.g. cardboard
- Working conditions are safe and hygienic
- Employment is freely chosen

### ORGANIC COTTON

#### Grown without chemicals

- Organic cotton is grown using methods and materials that have a low impact on the environment.
- No toxic pesticides
- Better health environment for the workers
- The cotton is grown and dyed according to GOTS standards

### BIONIC FINISH ECO

#### Just like nature

- The water-repellent component used is based on a fluorine-free recipe
- Water-repellent
- Soil-repellent
- Keeps colors and fabrics looking new longer
- Allows textiles to dry more rapidly
- Breathable
